

GALLOWS BRACKETS FASTENING

GB 03

Structural max. 75kgs

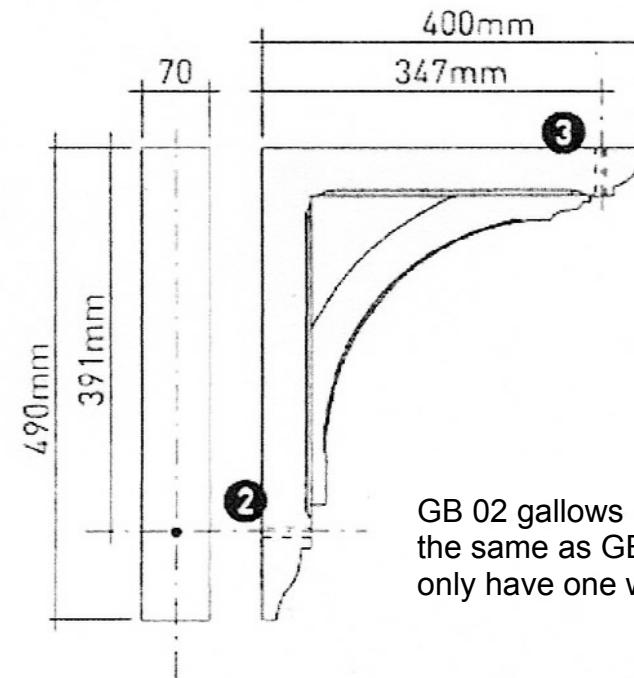

Each gallow bracket should be installed by using 2 x 150mm No 10 gauge screws, fitted through the pilot holes provided and secured to the wall by 75mm wall plugs. The forward nose of each bracket should be fixed through the pilot hole provided by using a No 10 gauge 100mm screw. For best results utilise white dome caps to cover the screw heads.

NOT TO SCALE

GB 02

Structural max. 35kgs

GB 02 gallow brackets are fitted the same as GB 03 except they only have one wall fixing.
